

THE GAZETTE.

TUESDAY, MARCH 19, 1878.
CITY AND COUNTY.

BRIEFLETS.

—Better wheeling.
—Old papers for sale at Gazette Counting room.
—Hoops are coming in fashion—among the boys and girls.
—The serenaders are clearing their voices and hold an occasional moonlight rehearsal.
—During the past week there have been 16 conveyances of real-estate recorded, amounting to \$2,650.
—The school children are being examined to-day. The book sellers report a lively sale of foolscap.
—The Bower City Band have decided to give their fifth annual concert at the Opera house Tuesday evening, April 23.
—Justice Patten is this afternoon inquiring into the guiltiness of some of the tramps arrested Saturday and Sunday.
—Among the noticeable building improvements in the Third ward are those upon the residences of Mr. W. H. Ashcraft and Mr. C. S. Jackson.
—Only four prisoners were at work to-day, Ald. Church having charge of the quartet. None succeeded in getting drunk as far as heard from.
—Will Spang has purchased Burt Heimstreet's shell, and sold his own to Will Webster, who will take rank as the tallest rower on the creek this season.
—Prof. Titcomb has fitted up his rooms over Moseley's store, in a most attractive and even elegant manner, making them as cozy headquarters as any in the city.
—A registered letter has reached the postoffice from H. Moss, Rolling Stone, Minn. It seems that in spite of the old proverb there is one rolling stone which has gathered moss.
—The Sheriff has been authorized to get some chains and balls to attach to the prisoners who are to be set at work hereafter. An order has accordingly been given to supply a dozen on the start.
—Marshal Keating is having his hands full of late with business, and the great wonder is that he can succeed as well as he does in ferreting out and bringing to justice the offenders. More officers seem to be needed just now.
—There was a small company gathered in Miss Battle's music room last evening to listen to a musical recital given by that lady and her pupils. Misses Mattie Wilcox, Carrie Jacobs, Wheeler, and Anderson took part. Some choice music was admirably rendered.
—A special Council meeting has been called for this evening to make out the necessary call for the city election, and to consider the advisability of placing the tramps in the quarry and keeping them at work smashing stones for the mending of the streets.
—David Griffin, a boy only 16 years old, was before Justice Patten to-day, charged with being drunk. He denied that he had got any drunk from a saloon, but said some other boys gave him a pull at a bottle in a lumber yard. Sentence was withheld until to-morrow morning.
—Last evening the three first degrees of the Temple of Honor were conferred on the three leading officers of the new Spring Brook Temple, they being George Dutch, W. C. T.; Spencer Alexander, V. C. T.; and Wm. H. Beaver, P. C. T. The exercises were of marked interest to those of the craft.
—A conductor reports that he met at Hanover to-day three tramps who said they were en route for Janesville, to join the street gang. It is evident that they don't deem the present work on the streets any great punishment. Perhaps they'll think differently if they get in the stone quarry.
—One of the deputy sheriffs to-day in the police court testified that the prisoner called him all sorts of vile names, and that he used language which he himself would not repeat in the presence of respectable folks—and then he proceeded to repeat the prisoner's language. No fine for contempt was imposed.
—The last social, this season, of the All Souls church will take place next Friday evening. An interesting programme has been arranged, including readings by Mr. O. H. Fethers, a duet by J. P. Williams and D. Bennett, a base solo, and some quartet singing, besides other attractions. A dance will take place after the exercises are concluded.
—Mr. James A. Webb, of the popular jewelry house of Webb & Hall, has received by express, as a happy surprise, an elegant gold hunting case watch, stem winder, Howard movement, bearing a neat monogram, and an inscription setting forth the fact that it is the gift of a jewelry house of whom Mr. Webb commenced buying goods twenty-one years ago yesterday. The anniversary gift is as appropriate as it is beautiful.
—By request of numerous patrons of Mrs. Richardson's lectures, the topic of the Thursday night's lecture is changed from "The Augustan Age" to "English Ballads and the Song Writers of the Sixteenth and Seventeenth Centuries." Many are anxious to avail themselves of Mrs. Richardson's wide research and admirable readings, to become acquainted with the gems in this out of the way field of English literature.
THE WEATHER.
The thermometer at 7 o'clock this morning stood at 40 degrees above and at 2 o'clock at 60 degrees above. Clear. One year ago to-day at corresponding hours the thermometer stood at 21 and 33 degrees above.
The indications to-day are for the upper lake region, upper Mississippi, and lower Missouri valleys, clear or partly cloudy weather, warm southerly winds, followed from the northward by rising barometer, colder northerly winds and increasing cloudiness.
HOUSEBREAKING AT CLINTON.
During church time, on Sunday evening, a party of tramps broke into the dwelling house of Mrs. Irene Benson, of Clinton, and stole several dollars' worth of goods, and ate all the cold victuals they could find.

A SAD SAD-IRON MAN.

A Patent-Right Man charged with Obtaining Money Under False Pretences—An Explosive Machine Said to Be the Cause of the Trouble.
Zelottus Curtis has a sad tale to relate in detail before the courts. He has sworn out a warrant against one Zora B. Custer, a patent-right vender, who is supposed to be in LaCrosse now, and an officer has gone forth to arrest him. He charges Custer with having nearly swindled him out of a large amount of money and property, under false pretences. It appears from Curtis' story that Custer had a patent sad-iron heater, which he claimed was going to revolutionize the laundry business, and send joy and comfort to the heart of every housekeeper. The heater was warmed up by the use of alcohol, and it had the startling defect of being liable to blow up after heated for a half hour, and hence endangered life and property. Custer is said to have well understood this defect and to have shrewdly managed so as to not have a machine blow up while he was exhibiting it. He would light it up for about fifteen minutes, take off the iron, use it a little blow out the light, let the machine cool off while he explained its workings, and would then repeat the exhibition. He is said to have reported sales as being so brisk that he could not get a sufficient supply to enable him to let contemplating purchasers of rights take a machine home to try it, and hence sales were made on the skillful exhibition made by him. In this way Curtis claims he got drawn into a belief that the patent contained a fortune, and the heater was a grand success. It is further claimed that the patent-right salesman, went to a man who had already been bitten, and told him that he would give him two counties more if he would not sue, and would give the machine a good recommendation when Curtis inquired about it. This man is also one of Janesville's residents, and played his part so well that Curtis concluded to invest in the explosive machine. He accordingly purchased two counties in Wisconsin and the whole of Illinois, paying therefor \$400 in cash, (which he raised by mortgaging his homestead), a \$35 watch and 200 acres of land in Minnesota. He claims that this property was obtained by fraudulent means and misrepresentations, and wants Custer to appear in court and explain his conduct.

ROBBER OF A GOLD TICKET.

R. A. Campbell, one of Janesville's tailors, says that he was robbed last night of a \$100 gold watch and a small amount of money. It appears that Campbell had been spending the evening in conviviality, and that he was with a party of three, two of whom are known residents of the city, and who escorted him to his house at the close of the evening's "hurrah." The third one in the party was a stranger, who was stopping at one of the hotels, and who became acquainted with Campbell and his friends during the evening, and spent some time with them. The officers are on the search for the watch, but so far in vain. Campbell does not seem able to say when or where exactly it was taken, and has no deeds of violence to tell, but is sure that his watch was stolen during the evening. He claims to have had a little change in his pocket also, and that was taken—at least he found his pockets empty after reaching home. Suspicion rests of course somewhat upon those who were with him last night, but it is quite as probable that some outsider slipped the ticket away, as he cannot tell when or how it was taken.

SUPPOSED BURGLARS CAPTURED.

A short time ago Osborne's hardware store in Woodstock was burglarized, and a large amount of cutlery, some revolvers and a little cash were taken. Information was received by the officers in this city that two of the burglars were hanging around the outskirts of the city, and last night, in accordance with more detailed information, officers Keating and Parker took a hand-car and ran out about three miles toward Milton, and came across two men who were trying to make themselves comfortable by a bonfire beside the railroad track. They were arrested and brought into the city and booked at the jail as Thomas Jones and George Foss. Jones had nothing on his person of interest, but Foss was well-armed. The men answer the description of those wanted at Woodstock, and the Sheriff there was accordingly telegraphed to, and will arrive to-day. Another charge, nearer home, is laid against them. On Foss's back was found an overcoat which has been identified as that belonging to Mr. Bush, whose house in this city was burglarized a few days ago. Foss was formerly a resident of Janesville, and is said to be a hard case. He will probably now have a chance to reform under the nourishing care of the State authorities. His companion has not been so fully identified, but will be held for examination.

FIREMEN'S ANNUAL ELECTION.

The members of the Fire Department met last evening to hold the annual election of a Chief and two Assistants, the same to be confirmed by the Council. There was the utmost unanimity shown, and the result was as predicted in last evening's Gazette, R. P. Young being chosen as Chief Engineer, Wm. Cunningham, First Assistant, and Henry Dewey, Second Assistant. Ten minutes was sufficient time to transact the business, there being but one mind and one will in the matter. A vote of thanks was tendered H. W. Dewey, the former Chief Engineer, for his past services. It is gratifying to the citizens to observe that while there is more or less rivalry among the several companies, yet this rivalry does not seem to be carried beyond the bounds of friendliness, and as is shown from last night's business meeting, is not allowed to conflict with the harmonious working of the department. In other cities of the State there have been during the past year several cases where rivalry and petty jealousy has almost disrupted and bankrupted the departments, and all interested in any way in the protection of life and property, should congratulate the Janesville fire-lads on their harmony of action.

The department is now in better shape than ever before. Mr. Young is popular, a hard-worker, and thoroughly experienced, and his assistants are equally worthy of the positions they occupy. The only weak point now is in the Hook & Ladder Company, which is well organized, but needs new apparatus. The truck is an antiquated concern which has been rattled about for twenty years or more. The truck could be used for some time yet, but there is a sad deficiency in the ladders and other equipments. If occasion should present itself, as it is liable to do at any moment, of running a ladder up forty feet or even less, it would be impossible to meet the requirements of the case. This matter demands prompt attention, and a complete supply should be furnished the boys at once, with all the modern improvements. With this improvement the department would rank equal to any of its size in the West.

AMUSEMENT DOINGS.

Mrs. Abbie Sage Richardson was greeted by quite a large audience at All Souls church last evening, her subject being Shakespeare. She struck a happy mean between those who rank Shakespeare as a mere actor, and compiler of plays, and those who believe that everything bearing his name came from his pen. She closely dissected the plays, and showed from what sources Shakespeare drew many of them, reading with fine elocutionary effect certain passages, and like passages from the old chronicles, poems, and plays which Shakespeare revised and made his own. Other passages read by her were presented as truly original in conception and language. These latter were sufficient to establish the authors rank as far superior to any who preceded him and fully equal to any of his predecessors. She described vividly the old globe theatre, and the peculiar customs of the age, and presented many fresh thoughts clad in beautiful language. Without attempting any outbursts of eloquence, or flashy display of high colored rhetorical flowers, the lecturer wove together a brilliancy of style with matter-of-fact historical statements, which commanded the close attention of her auditors. The lecture as a whole was a treat to those interested in literature. Next Thursday evening Mrs. Richardson lectures on "The Augustan Age of English Literature" and Saturday night gives her last lecture on "The English Ballads and Song Writers of the Sixteenth and Seventeenth Centuries."

To-night the Edwin Clifford dramatic company appears at the Opera house in Camille, Alexander Dumas' great five-act play, translated from the French. Miss Amelia Watts, an artist of acknowledged ability and culture, takes the leading character. The company is a strong one, and is not unknown to the amusement lovers of this city, who in times past have delighted in patronizing them liberally. It is seldom that such a strong company is placed upon the road, and the fact that Janesville has been selected for their first appearance in their reorganized form, is a compliment to the city which should be acknowledged by the presence of a large audience. The press everywhere speaks most highly of the plays of Camille and Logomars, the latter of which will be put on the boards to-morrow evening. The fact that Miss Clara A. Judd, of this city is to make her debut here, and is to be hereafter connected with the company, will add much to the interest of the occasion.

The Lottie Combination will appear at the Opera house next Saturday evening in Uncle Tom's Cabin. There has been no play produced which has had such a long and successful run, and the public never seems to weary of seeing Lottie as the vivacious and mischievous "Topsy."

RED RIBBONISM AT SHARON.

The red ribbon movement, to-day, is passing like a tidal wave over our country has received a powerful impetus. In its oscillations, here in Sharon, under the sledge-hammer arguments and earnest appeals of Bro. Sergeant Childers, gBro. Childers was with us a part of last week, and his appreciation is apparent in the following resolutions which were unanimously adopted:
Resolved, That we, the members of the Red Ribbon Club, of the town of Sharon, express our gratitude to Brother Sergeant F. Childers, by tendering him a vote of thanks for his successful protracted efforts with us in this temperance movement; and may God help and protect him, in the earnest prayer of this organization.
Resolved, That by his eloquent, earnest appeals many have been persuaded to sign the pledge, and the temperance cause been made popular in Sharon.
Resolved, That these resolutions be published in the Sharon Inquirer, and Janesville Gazette. By order of Sharon R. H. C.

Brother Childers did propose leaving Saturday night, but was unavoidably detained. Sunday morning arrangements were perfected for a grand temperance mass meeting in the Congregational church. The several pastors omitted their evening services, and all repaired to this spacious building which was crowded to its utmost capacity, and then for nearly two hours the Sergeant held his audience spell-bound. His appeals moved forty more to sign the pledge, thus swelling our number to over 400.
J. W. TIFFANY,
President Sharon R. H. C.

SALES OF TOBACCO.

Sales of seed leaf tobacco reported by J. S. Gans' Son & Co., No. 80 Wall Street, New York, for the week ending March 18, 1878:
The general tone of the market has been flat; 1570 New England was the only article that showed activity with sales of:
600 cases 70 New England, 9, 10, 11, 12, 15 to 18c.
40 cases 70 New England, 25 to 30c.
150 cases 70 Penna. 10 to 15c.
300 cases 71 S. & O. Ohio, 7 to 8c.
100 cases sundries, 5 to 15c.
Total cases 1400.

PENSIONS.

The pension bill which passed the house on the 4th inst. is an amendment to the law of 1871, granting pensions to soldiers of the war of 1812 who served sixty days, and to the widows of such as had died, provided they were married previous to February, 1815. This amendment requires but fourteen days service and gives the pensions to the widows of deceased soldiers of said war, provided they were married previous to 1850. The law now includes many who did not come within the provisions of the former law, and as those entitled to it are necessarily far advanced in life's journey, it behooves them to give their attention to it at once. S. A. Hudson, Esq., of this city, is prepared to forward the applications of such persons.

JOHNSTOWN CENTER.
—Considerable seeding was done in this vicinity during the past week. A few were afraid to begin so early in the season, but will be at it with full force, this week.

The Johnstown Center Dramatic Club played the old and popular drama, "Ten Nights in a Bar-room," in this village last Tuesday evening. They had a full house, and over thirty dollars were taken as the receipts of the evening. They have received an invitation to repeat it at the old town, two miles east of this village. They have concluded to accept, and have appointed Tuesday evening, March 26th, as the time. We have no doubt that they will have a full house.
—Mite society (this Thursday) evening, at the residence of Mr. Randall. All are invited to attend.

—Rye, winter wheat and grass have not for a long time looked better at this season of the year than at the present time. Winter wheat has been so very uncertain a crop for a number of years that farmers have almost abandoned sowing it; but those fortunate enough to have a few acres this year, will, from present appearances, receive a liberal compensation for their labor. The low price of rye of the present year has not made it an inducement for farmers to sow but little. So it will be seen that farmers are not always happy, as when showers of porridge come their dish is frequently bottom side up.

—Mr. N. Cole and Mr. A. W. Wells have traded places, Mr. Wells taking the house and lot formerly known as the Squire's place, and Mr. Cole the one owned and occupied for many years by Mr. Wells.
—Mr. R. Beardsley was recently kicked by a horse, and considerably bruised, but fortunately no bones were broken, and he is now around as usual.

As town elections are approaching, it is not strange that people should begin to discuss the good or bad qualities of those seeking nomination for the various town offices. This town has a goodly number of good and well qualified men who would, no doubt, if elected, do credit both to themselves and the people. At the coming caucus a wise selection should be made, and the people will ratify their action.
—Mr. Charles Duell recently returned from Minnesota, where he has purchased a farm, and intends moving with his family in a few days.
—Work has commenced on the well for the cheese factory, which will soon be completed. The carpenters will soon commence work on the building, which will soon be erected.

—Just an amount of plowing and seeding has already been done. Should the weather continue favorable during the present month, the greater portion of seeding will be done.
—The majority of wood-piles are quite small, which is owing to the lack of sleighing during the winter.

The people of this place have invited the Johnstown Center Dramatic Club to play the drama "Ten Nights in a Bar Room," and to conclude with the farce, "Bad Whisky," in the church at old Johnstown. The Club have accepted the invitation, and will give the entertainment Tuesday evening, March 26th. The Club gave the entertainment at Johnstown Center, March 12th. All that had parts acquired themselves in a very creditable manner, and great credit is due to J. W. McGowan, who delivered the opening address. All who attended pronounced it a complete success. Remember the date and give them a full house, as all who attend will feel well paid. Admission fifteen cents. Children under twelve, ten cents.

Vigor of Mind and Body.
Every person would have more vigor of mind and body, and mental clearness were they to use a daily diet of unboltheaded wheat flour. Mix with the flour dry, Dr. Price's Cream Baking Powder, stir in pure water, form a soft batter, bake in gems or biscuits, and the result will be the most nutritious article of food that can be made.

CITY NOTICES.
—Dimock & Hayner have been appointed agents, for Janesville and vicinity, of the staunch old Newark Fire Insurance Company, of New Jersey, organized in 1810 and one of the best managed insurance companies in this country.

CHICAGO MARKET.

CHICAGO, March 18
The afternoon markets were fairly active, and prices were stronger
Wheat—The market on spring wheat—This movement in this cereal was quite bullish to-day. The trade seemed to regard the market with some uneasiness, yet all the influences affecting prices, such as receipts, shipments, and the condition of affairs at outside centres, favored an advance, and the prevailing feeling was considerably more one-sided than at the close of last week. In a word, the bulls were masters of the deal, and prices on grain for April delivery—the principal option—ruled 1/4c higher than at the last report. Cash wheat was in demand, and for gilt edge receipts of No 2 sellers succeeded in obtaining an advance of 3/4c. Regular grain was only a shade higher. General business was active, and in speculative circles a busy day was passed. Cash No 2 closed at 1 07 1/4 bid for regular, and 1 10 for gilt edge receipts
The latest report on No 2 spring wheat was active at former prices, March being quiet and very little different from April; seller April sold at 1 07 1/4 @ 1 08, and closed at 1 07 1/4 @ 1 07 1/4; seller May was 1 02 1/4 @ 1 03, and closed firm at 1 03 1/4
